ABOUT INSURANCE TECHNOLOGY SERVICES (ITS)

Based in Dallas, Texas, ITS is an insurance consulting and services firm specializing in the design, implementation, and utilization of technology to optimize critical business processes and achieve exceptional results. ITS serves P&C insurance organizations of all sizes across the country. ITS provides system implementation support (including project management, business analysis, forms design, system development, testing, and legacy data conversion), process improvement services (including PMO establishment, quality assurance, and production support), and change management services (including end-user training, organizational change planning, and business process reengineering), as well as proprietary insurance platforms for automated functional testing and data migration. ITS helps insurance organizations manage and reduce risk by deploying agile teams with exceptional insurance and technical expertise to streamline implementations and boost the capabilities of existing IT staff.
